

## IGNITERSPACE GAME DEVELOPMENT

### COMPETITION WITH SCRATCH!

Hi Kids! We know all of you are spending the time at home productively! To add to that, IgniterSpace is hosting an Online Game Development Competition! It is very simple; All you have to do is build a very Creative Game using SCRATCH and send it to us! The winners will receive an amazing CreaToKit - Robotic Innovation Kit! Also the Winners will be published on IgniterSpace Facebook page & **your game will be added to the IgniterSpace Curriculum!** :D

#### The Gift - Your own CreaToKit Home MakerSpace Tool Kit

For the game, There are two age groups:

- 1. 8 - 11 Age Group :** Your game should have at least one player and the game should have an objective (Go to the finish line, Collect all the food, etc)
- 2. 12 - 16 Age Group :** Your Game should at least have 2 players (Computer vs Player or Player 1 vs Player 2). Your game should also have an objective.

## Criteria for selecting best Game :

The selection for the best game in each group will be based on the following simple criteria :

1. **Creativity** - How innovative & creative is the game. Is the idea a new & unique one and have the student used their imagination to come up with a new concept.
2. **Logic & Coding used in the Program** - What kind of logic & programming structure the student has used in creative the program. (Variables, Loops, Conditionals, sound, etc)
3. **Entertainment** - Simple : IS THE GAME FUN TO PLAY? :D

## How to make a project and share it?

Making and sharing a project on scratch is very easy. Follow the below guidelines to complete the project and share it.

### Creating an account on scratch.

Go to <https://scratch.mit.edu/> to get to the home page of scratch website. On your right top side there will be a **join scratch** button click on that. After that fill the form given and click on next.

Select the suitable answers to the questions given to create the account as per the example given below.

After you give your mail you will get a confirmation mail to your email address then click on next you will get a confirmation mail. Click on confirm mail and your account will be created.

## Making a project and sharing it?

Sign in to your account from the scratch home page. then click on **create** to start creating your game.

Doing this will send you to an empty workplace where you can create your own project. After finishing your project give it a suitable name.

Then save the project by going to file and Save now. Now go to “See project page” and here you can see the way the others see your project.

As you can there’s an error which says “**This project is not shared**” to share the project first give instructions to play the game and notes and credits about the game finally click on the share button. After finishing the project click on “copy link” to send to others.

Once you have developed your game, publish it on Scratch and send us the game link with a short video of you explaining how you made the game.

### Submission Information:

1. Name & Age of the Child
2. Parent's Contact Number
3. Link for the Scratch Game
4. Video of Child explaining the video

**Submit your game on or before the 15th of May (Friday) 2020 12:00pm to the number 0777 206 228 via whatsapp / viber.**

**Winners will be announced on the 18th of May! Wishing you all the very best! REMEMBER, the most CREATIVE Game WINS!**

**For any further information, feel free to call us on 0777 206 228!**
